

## SECTION 15. LOADING GCCS MISSION APPLICATIONS

### 15.1 GCCS Mission Applications are all non-JOPES applications excluding UB.

Table 15-1 list GCCS Mission Application segments that may be loaded on a application server, client, or Oracle database server. The segments are listed in alphabetic, key points regarding installation are listed below:

1. JDISS Server must be loaded before JDISS Client or JDISS Image Product Archive
2. Those applications that have database server segments on the database tape will require Oracle Apps Server Tools on the Application server.
3. AMHS Client requires TOPIC. When loading the AMHS segments the AMHS Installation Procedures should be consulted.

**Table 15-1. GCCS Mission Applications**

Application	Version	Size	Tape	Comments
<b>AMHS Segments</b>				
* AMHS Client	3.1.2.01		2.2 (AP.1)	
AMHS Server	2.1.4	11155	2.2 (AP.2)	
* AMHS Server Patch	3.1.2.01		2.2 (AP.2)	
COTS Topic	3.1.5c		2.2 (AP.1)	
<b>JOPES Application Segments</b>				
* Oracle Application Server Tools	7.1.4.06		2.2 (AP.1)	
<b>Non-JOPES Mission Applications</b>				
* AirFields	2.1.2		2.2 (AP.2)	
* AirFields Remote	1.0.01		2.2 (AP.1)	
EVAC Client	1.1	24147	2.2 (AP.1)	
EVACDB Server Segment	1.1		2.2 (AP.2)	
* FRAS SUPPORT	1.2.6		2.2 (AP.1)	
* FRAS SUPPORT Remote Client	1.2.6.01		2.2 (AP.1)	
GCCS ATO Review Capability	1.0.1	5567	2.2 (AP.1)	

**Table 15-1. GCCS Mission Applications (Cont.)**

* GCCS ATO Rev Cap Patch	1.0.0	2.2 (AP.1)	
Global Reconnaissance Information System Core	2.3.02	2.2 (AP.1)	
* JDISS Client	2.0.4.01	2.2 (AP.1)	
* JDISS Server	2.0.3.01	2.2 (AP.2)	
* Target Multimedia Tool	2.2.2.06	2.2 (AP.2)	
<b>Non-JOPES Oracle Database Segments</b>			
* FRAS SUPPORT for Database Access	1.2.1	2.2 (DB.1)	
* GRIS Database Server	1.0.02	2.2 (DB.1)
